

## HP MANAGEMENT SOLUTIONS

From Easy To Enterprise

Manage your IT environment; don't let it manage you. HP offers a complete management suite of products to meet the needs of any IT environment. Whether the need is to manage a few thin clients in a remote location or to manage hundreds of thousands of devices in a highly active IT environment, HP provides impressive options to meet those needs. "From Easy to Enterprise" describes the choice of: simple but efficient HP ThinState, the thin client focused HP Device Manager, the powerful and flexible HP Client Automation Software, or the proven and capable Altiris Deployment Solution. Choose based on your needs!

### **Quick and Complimentary**

HP ThinState Tools are a great complimentary management solution. ThinState Tools allow for settings and images to be captured and deployed via a USB key. This has proven to be a handy tool in any IT environment.

### **Thin Client Focused**

HP Device Manager is a thin client only management solution that is easy to install and use. HP Device Manager can be installed in minutes and once installed can immediately communicate with HP thin clients. HP Device Manager is

designed to work with only thin clients, which allows it to focus on imaging, setting and connections management and most importantly security. HP Device Manager is available for all HP thin clients.

### **"More Intelligence Please"**

HP Client Automation is powerful and flexible yet easy to use. Manage thin clients, PCs, blades or many additional components in your enterprise. HP Client Automation is a natural choice to support any IT environment, but truly excels in enterprise environments where it simplifies the management and control of practically any device.

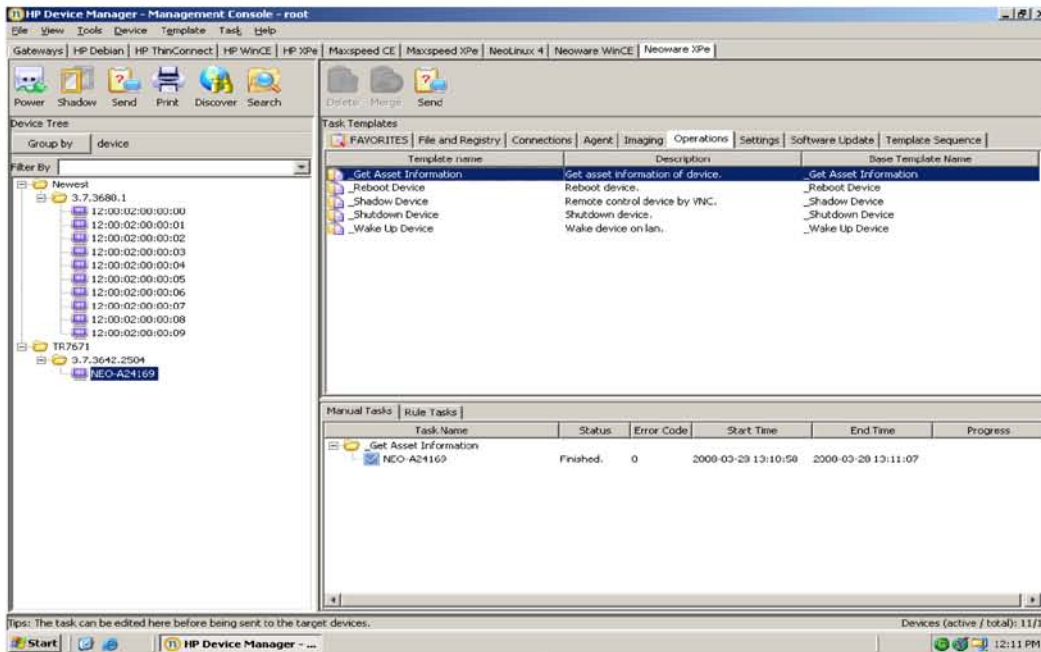

Leveraging the "desired state" concept, HP Client Automation lets you set the rules so it can do the work for you. HP Client Automation is available for all HP thin clients.

### **Proven Winner**

Altiris Deployment Solution has been a strong solution for HP thin clients for many years. Easy to install and intuitive, Altiris gives you strong thin client management and more. Altiris is included on all HP thin clients.

# HP DEVICE MANAGER

HP Device Manager supports these HP thin clients:

Standard HP Device Manager Graphical User Interface
